

DIE CORONA-WARN-APP IST DA:

**JETZT HERUNTERLADEN UND CORONA
GEMEINSAM BEKÄMPFEN!**

corona-warn-app.de

Your and our security

We register with luca and the Corona warning app!

We implement the registration requirement with Luca and the Corona warning app. The best thing to do is to download the app to your mobile phone at home - you will need it on site: for checking in at the hotel and restaurant. Please only enter our company symptom-free.

Tested. Recovered. Vaccinated. (3G)

As of June 28, 2021, hotel and restaurant guests will no longer be required to provide evidence of 3G as long as the incidence remains below 35.

3G proof:

Negative rapid test (not older than 24 hours). The free citizen tests in the test centers can be used for this. In addition, employers, for example, can also confirm a negative test result.

Recovered and fully vaccinated persons are exempt from this test requirement if they can present appropriate evidence: In the case of recovered persons, the infection must have been at least 28 days (the PCR test is the reference date) and a maximum of 6 months ago. Vaccinated persons must have been fully vaccinated for 2 weeks.

Children under 6 years of age don't need to be tested exempt if they are symptom-free.

Arrival without quarantine obligation

Arrival without a quarantine obligation is currently only possible from Germany or countries that are not listed by the RKI and from a risk area. To do this, you will need a negative rapid test upon entry, proof of a full vaccination or your recovery.

If you are entering from abroad, you must register this in advance using the form.

<https://www.einreiseanmeldung.de/#/>

Entry with mandatory quarantine

High incidence area: A quarantine of 10 days applies on entry. A negative test result or proof of full vaccination or your recovery must also be presented. A quick test is sufficient and must not be older than 48 hours.

After 5 days, the quarantine can be shortened with a second negative rapid test.

Virus variant area: Upon entry, a quarantine of 14 days applies, which cannot be shortened. In addition, a negative test result must be presented: a rapid test is sufficient and must not be older than 48 hours.

All current information and regulations for entry can be found here.

Corona basics

We now know AHA + ventilate inside out. Therefore, here in a nutshell the most important information:

According to legal requirements, a **medical mask** is required in all public areas. For example, on the way to the table in the restaurant, in the hotel corridors, on the terrace. You can of course take off your mask at the table.

We keep your **distance** and have made sure that you too can do the same.

There are **disinfectant** dispensers throughout the house for your personal hand hygiene. Please use this before entering the restaurant or hotel.
